- Contract Title** : TAP development support consultancy for Iraq
- Content** : Nabni is a project that seeks to further the Building for Peace approach, which aims to support locally led reconstruction processes in conflict-impacted communities in the MENA region. Funded by BMZ through KfW, Nabni finances and supports local civil society organisations in leading processes and projects that aim to build or rehabilitate physical or social infrastructure, strengthen governance, improve access to essential services, support or create livelihoods opportunities, or reinforce social ties at the local level.
- Managed by the Norwegian Refugee Council (NRC) and based in Amman, Jordan, Nabni operates through three pillars: (1) financing and partnerships, (2) technical assistance and capacity strengthening, and (3) knowledge sharing.
- The Nabni TAP aims to strengthen local partners' capacities to (1) effectively implement Nabni-funded projects in line with KfW and Nabni SOPs, and (2) support their long-term organisational growth. TAP actions may be operational or strategic, depending on priorities. TAPs are developed based on organisational capacity assessments by Nabni and lead grantees, Nabni's observations during partnership phases, and partners' own development priorities.
- While Nabni has conducted capacity assessments in Iraq and Yemen, additional specialised consultancy (company or sole trader) support is needed to finalise TAPs, ensuring coherence, value for money, and alignment with best practices.
