<b>Contract Title</b>	: Establishment of FWA for the Provision of e-Procurement System
<b>Content</b>	: Nabni is seeking proposals from qualified companies to provide a simple, secure, and user-friendly e-procurement system. This RFP aims to explore the available e-procurement systems to address a critical gap among our implementing partners who currently rely on manual, in-person bid submission or email-based processes, both of which are inefficient, insecure, and do not align with best practices.

The e-procurement system should enable the following key functions:

1. e-Distribution: the electronic download of Tender documents
2. e-Clarifications: Clarification requests captured by the system
3. e-Opening: the electronic submission of bids and Secure bid opening processes through the system

Nabni aims to enter into a two-year Framework Agreement, with the option to extend for an additional year.

No margin of preference is applied; the Bid is open to all eligible Bidders.
